## CARBON TENNIS CLUB NEWS NOTES

### Carbon Boys Give Great Display of Tennis Against Rockyford

Four Carbon Boys from the Public School played a match against four Rockyford High School boys on May 31st at Carbon. It was thought at first that the Carbon boys were overmatched, as three of the Rockyford boys were 17 years old and the other one 15, whereas two of the Carbon boys were just 11 and the other two were 14 years of age. However, in spite of the handicap of age the Carbon boys played a fine uphill game and finally made a draw with the Rockyford team each side winning three events.

The final between R. Wise of Carbon and W. Gibson of Rockyford caused great excitement among the spectators as Gibson was leading 5-3, but Wise made a splendid effort and took the next four games to win the set 7-5. The following are the results and scores of this match:

**Boy's Singles**—N. Nash of Carbon defeated W. Walrod of Rockyford 6-3, 6-2. R. Wise of Carbon defeated W. Gibson of Rockyford 3-6, 6-4, 7-5. G. Jealous of Carbon defeated L. Walrod of Rockyford 2-6, 6-4, 6-0. H. Birt of Rockyford defeated W. Skerry of Carbon 5-6, 6-3, 6-0.

**Boy's Doubles**—W. Walrod and W. Gibson of Rockyford defeated N. Nash and R. Wise of Carbon 6-5, 6-5. L. Walrod and H. Birt of Rockyford defeated G. Jealous and W. Skerry of Carbon 6-4, 6-3.

### Carbon Juniors Play at Drumheller

The four Carbon Public School boys who have been so successful at Lawn Tennis this year journeyed to Drumheller on Saturday, May 30th to play the Drumheller boys. When they arrived they found that it was the High School boys they had to play, and the Drumheller boys were much older than the Carbon boys. Owing to the late start only two events were played. N. Nash of Carbon, after winning the first set 6-4 against Jamieson of Drumheller, lost the match 4-6, 6-1, 6-3. R. Wise of Carbon made a close fight with Ervin of Drumheller, but lost 6-5, 6-5. The High school boys of Carbon are now trying to arrange a match with the Drumheller High School boys for this coming Saturday.

### Carbon Tennis Club Junior Tournam't.

In order to encourage tennis among the juniors, the Carbon Lawn Tennis Club held a tournament for the boys in the Carbon District. Singles and Doubles were played with the following results:

**Boys Singles, First Round**—J. James defeated J. Code; R. Wise defeated F. Poxon; W. Skerry defeated H. Wise; W. Poxon defeated J. Fairbairn; H. Poxon won from H. Edwards by default; L. Trepanier defeated S. Poxon; C. Reed defeated R. James; G. Jealous won from S. Malton by default.

**Second Round**—R. Wise defeated J. (Continued on back page)

## SHORTHORN CLUB PICNIC

The Avondale Shorthorn Club are holding a picnic and field day at the Downsview Ranch, three and one half miles east and one and one half miles north of Acme on Wednesday, June 10th. All interested are cordially invited to attend.

After the picnic luncheon at noon there will be judging of cattle and interesting and instructive talks on the Shorthorn cattle. The speakers will include J. W. Durno of Calgary and A.E. Meyer. Professor J. P. Sackville of Edmonton will also address the gathering.

The club will provide tea, coffee, sugar and cream. Those intending to come will kindly include cups in their baskets.

W. D. MacDonald, Sec.-Treas.

## Alberta News

The elevators at Carstairs, Didsbury and many other towns throughout Alberta are observing the Wednesday half holidays during summer months.

For the first time in the history of Gleichen the Empire Day Sports were called off on account of a dust storm. After the committee in charge had decided to cancel all arrangements, and other towns were notified, the wind died down and a real summer day resulted.

Mayor Hanley of Drumheller was en route to his old home near Greenfield Ontario, and while on his way he received word that his father had been gored to death by an enraged bull.

Recent high winds near Cardston have done considerable crop damage this spring.

Owing to such a large deficit in operating last year, the Air Mail service of Canada will be cancelled, according to a recent announcement made by Premier R.B. Bennett.

The new pastor of the Three Hills United Church will be Rev. Mr. Corcoran, who will succeed Rev. A. R. Schrag, who received a call from Westkiwin.

The Cartier Oil well west of Olds is down to a depth of over 400 feet.

The Village of Carstairs has installed a new fire siren, to take the place of the old bell.

The Bassano Branch of the Canadian Bank of Commerce will close its doors on Saturday, May 30th.

Voting on a local option plebiscite will take place at Arrowwood on Saturday, June 27th. The last vote taken there was on June 12, 1929, when the votes recorded were 37 for beer parlors and 85 against.

HAVE YOU PAID YOUR SUBSCRIPTION YET? NOW IS THE TIME

## GOOD CHAUTAUQUA PROGRAMME

The organization meeting of the Carbon Chautauqua was held in the Municipal office on Friday night, May 29. About twenty-five guarantors were at the meeting, although the guarantee contains forty-nine signatures.

Miss Jean McKechnie, the advance agent for Chautauqua, was present and outlined the program for this year, pointing out that never before has the program been better on the Chautauqua circuit.

The following officers were elected for the 1931 season:

President, D. G. Code.  
Vice-President, H.C. Willson.  
Secretary-Treas., R.J. Fairbairn.  
Advertising Committee: H. N. Elliott, P. Edwards and E.J. Rouleau.  
Grounds Committee, to look after tent and seating arrangements: Messrs. A.H. Jealous, W. Leitch, W. Hay, and G. W. Malton. This committee has power to add to their number.

A committee for handling the children was appointed with C. Dunsmore and J. H. Oliphant as members.

The ticket committee, to handle the distribution of tickets and appointing ticket sellers, was appointed. Those on this committee are Messrs. R. J. Fairbairn, H.C. Willson, H.N. Elliott, S.F. Torrance.

After considerable discussion it was decided to sell reserved seat tickets this year at \$3.00 each, or 50c more than the regular admission. The reserved seat plan will be at the Carbon Hotel and anyone wishing reserved seats can get same by applying at this place of business.

It is only about ten days to Chautauqua and the general public is asked to help boost this great entertainment, as it may be their last opportunity of being able to get this unusual entertainment at such a reasonable ad-

**DR. T. ELWOOD BAILEY**  
"Full Speed Ahead" is the title of the interesting-compelling lecture to be delivered by Dr. T. Elwood Bailey. His message is of vital importance to every community.

mission charge. The season tickets for adults will be \$2.50 and for children the season tickets are \$1.00. When the ticket canvasser comes around do not disappoint him. If you haven't the ready cash now, there is still time to save enough from the butter and egg money, or from the cream cheque, to secure for yourself a season's ticket to a great entertainment.

There is a very good program at the Carbon Chautauqua this year. On the opening night the Peerless Players will present "Bought and Paid For." This is a drama of real life and those who have seen the play claim it is one of the best ever put on at Chautauqua.

On the afternoon program of the second day the Cartoonist, J. Franklin Cavenay will put on a gala entertainment. He will be assisted by seven superb vocal artists.

During the evening on the second day the Carmen Opera Company will have charge of the evening's entertainment and many selections from some of the most famous light operas will be rendered.

The third day's afternoon program will be "The Merry-makers"—Four versatile and charming entertainers.

The program on the evening of the fourth day will be very interesting to most of the farmers of the district. A prelude of "The Merry-makers" will

## THE COOPER TWINS

A unique event was the Baptism of the "Cooper Twins" at Christ Church Carbon on Wednesday, last. The unique quality of this event lies in the surrounding circumstances. Twins are usually regarded as somewhat extraordinary and the proud parents receive special felicitations when such an arrival occurs.

We are informed that Jean and Joyce are the first twins born to an Anglican family in this district. Certainly they are the first to be brought to the first Anglican Church in Carbon for baptism; and furthermore, Rev. Batchelor informs us that they are the first twins upon whom he has bestowed the Sacrament of Baptism. We may, therefore, be the first to prophesy that this unusual association of 'first' with these bonny babies is the 'first' portent that they may become front rankers among the 'first' daughters of this Dominion.

## Angelo Funeral

The funeral services of the late Michael Angelo were held on Friday afternoon and burial was made in the Carbon cemetery. Winter Bros. of Drumheller had charge of the funeral arrangements and Rev. Father Killen officiated. The pallbearers were Messrs. F. Burke, W. Birtles, S. Lilja, A. Michel, F. Ives and A. Govin.

The late Michael Angelo met his death in the old Fuller Mine last Tuesday when he went into the shaft to procure some old pipes. This burning inside and the gas was too great for human existence. It is thought, however, that when Angelo found himself becoming asphyxiated that he attempted to leave the mine shaft, for his body was found within 50 feet of the entrance.

The deceased leaves no relatives in this country and was an Italian by birth.

be followed by the entertaining lecturer, Dr. T. Elwood Bailey. Mr. Bailey's address will be "All Aboard" and the Chautauqua lovers will be treated to one of the finest addresses that have ever been given. It is said that Mr. Bailey is a very influential speaker and that his address is not boring. Instead, it is a pleasure to listen to this great lecturer.

The last day of Chautauqua is always the best. The afternoon's program as usual, will be a kiddies' program, although it will probably be as amusing and entertaining for the adults as it will be for the children. This program will be the Presenting of Peter Rabbit by Sue Hastings Marionettes.

Then to crown the Chautauqua programmes comes the presenting of the Comedy "Skidding" on the last night of Chautauqua. This play is said to be a Modern Comedy of American life and is presented by The Canadian Players.

From the above program it will be seen that this year's Chautauqua program is well balanced and contains two plays (which are worth the price of a season's ticket themselves) two musical programs, two vocal programs and a children's program.

Buy a season ticket to Carbon Chautauqua and save \$2.50. The price of the single admissions amounts to \$5 if you take in all the programmes. A season ticket only costs \$2.50 for adults and \$1.00 for the children.

## HIGHLIGHTS ON BENNETT BUDGET

Postage rate on ordinary letters increased to three cents. Rate on newspapers and periodicals also increased.

Subsidies totalling \$1,800,000 will be paid for the coal industries of the Maritimes and Western Canada. Subsidy on Alberta coal shipped to Manitoba will be extended as far east as Fort Francis and Sioux Lookout.

An increase in the sales tax to four per cent from one per cent.

The Dominion Government will pay five cents per bushel of the cost of transporting all wheat produced in Western Canada. This is a temporary measure for one year.

Duty will be collected on containers of certain goods entering Canada.

Numerous food products, such as fresh meats, hams, cheese, powdered milk, canned fruit and oranges, will enter under increased tariffs.

Used automobiles are prohibited entry, save as settler's effects or travellers' vehicles.

Duties on anthracite coal, coke, bituminous coal and coal screenings and charcoal are increased.

Magazines and periodicals are made subject to a specific duty of 15 cents a pound, with the exception of an exempted list.

Goods imported from a country not a signatory to the Treaty of Versailles may be forfeited.

Further safeguards against dumping are provided.

Income tax applicable to income of corporations and joint stock companies is increased from eight to ten per cent. Exemption for persons at present entitled to \$3,000 will be raised to \$3,500 for income tax.

Special excise tax of one per cent is imposed on all goods imported into Canada, having a value of less than \$25.00.

Dominion contributions to the old age pension scheme will be increased to 75 per cent. (The provinces pay the other 75 per cent.)

The stamp tax on cheques which was two cents on cheques above \$10 will apply now to all cheques.

### Expect Revenue to be \$78,175,000 More

The new imports to be authorized by the tariff resolutions tabled during the budget speech Monday, Premier R.B. Bennett stated, would, it was hoped, produce an additional estimated amount of \$78,175,000.

### Grain Subsidy Means \$10,400,000

The five-cent-per-bushel subsidy on Canadian grain exports, will on the basis of the year 1930, mean about \$10,400,000 to Canadian farmers. This five-cents will be absorbed by the Government on the freight rate.

### TENNIS CLUB DANCE

The dance put on in the Farmers' Exchange hall last Friday night proved to be a popular affair although the crowd was not as large as was expected. A number were present from Acme and Swatwell and the combined crowd of young people went a long way towards making the evening a success. The Carbon Ladies' Aid had charge of the supper arrangements, and during the lunch hour Rev. Batchelor gave a humorous address, to the delight of his audience.

### Canada's Railway Milestones

Fifty years ago, on May 2, 1881, to be exact, the first sod for the construction of the Canadian Pacific Railway was turned, thus commencing one of the great engineering undertakings in the world's history and marking the beginning of the world's greatest transportation system. Enthusiasm for and confidence in this great work was mingled with grave doubts and misgivings, and especially in financial circles in the old world were grey heads shaken in doubt over the wisdom of a young country of small population and no accumulated wealth embarking on such a gigantic enterprise.

The contract for the building of the C.P.R. called for the completion of the project in ten years. It is a matter of history that the last spike of the original main line was driven on November 7, 1885. In other words, construction was completed in four and a half years, and on June 28, 1886, the first C.P.R. train to the Pacific coast left Montreal, arriving at Port Moody, B.C., five and one-half days later.

The building of the C.P.R. was in fact the building of Canada. Without it Confederation could not have been achieved nor continued. It is the steel link which bound all of British North America together. The successful carrying through of this huge undertaking not only gave the people of Canada courage, but it established confidence in the new Dominion throughout the world. It was a visible object lesson, an ever present encouragement to the Canadian people in dark days and in undertaking other great enterprises.

With the completion of the C.P.R. possibly many people of that day thought that Canada's transportation problems were solved. Yet within fifteen years of the driving of that last C.P.R. main line spike, Messrs. Mackenzie and Mann were engaged in building a second transcontinental railway across Canada, and within the brief space of another ten years a third transcontinental was under construction from the Atlantic to the Pacific.

Looking back over the years, and in the light of experience, Canada probably overdid the building of transcontinental main lines, but at the time these works appeared to be necessary and essential to the national well-being and development. Possibly, too, had the Great War not plunged the world into confusion and years of wholesale destruction, the story of Canada's railways would be different. However, to speculate on this is idle. The fact remains that, with that same courage which promoted and successfully carried through the C.P.R., the people of Canada faced and grappled with the problem which confronted them when war broke and the Canadian Northern, Grand Trunk Pacific, National Transcontinental and the old Grand Trunk were plunged into financial difficulties.

Turning back another page in history, we find that it was only eleven years ago, May 26, 1920, that responsibility for the operation of the Grand Trunk passed to the Government of Canada. Thus several main line systems and a conglomeration of badly co-ordinated branch lines, with a top-heavy financial structure, were left on the hands of the Government. Within a decade these have been amalgamated into a mighty and highly efficient transportation machine, with the largest mileage of any railway under one management in the world. An operating deficit of \$32,000,000 in 1920 was transformed into an operating surplus of \$20,884,000 in 1930, and this wonderful achievement is but symptomatic of improvements and advances made in every department of service, until today the Canadian National Railways are a source of pride to every Canadian.

In a previous article it was stated that the people of Canada are an impatient people; that they demand results almost over night; that they insist on having all those services and conveniences which the people of other lands have devoted centuries to creating and developing. And it is true, but possibly what Canadians have accomplished in the life of one or two generations is responsible for this national trait; perhaps their accomplishments are the result of this impatience. Nevertheless, such a national characteristic has its dangers. With all the advantages of our great transportation systems, we are of necessity paying heavily for past mistakes, — mistakes attributable to our impatience.

And the real danger lies in the fact that we do not appear to have learned the lesson, costly as it has been. We are still vehemently demanding other things which, in our own best interests, it would be wise to defer for a time until we get our feet a bit more solidly on the ground, and secure for ourselves a stronger position where we can the better stand the strain which these additional and admittedly desirable things will impose upon us as a people.

#### New Style Typewriter

Coin-in-the-slot typewriters are the latest machines for use of the public in Germany. One thousand letters or spaces are available upon insertion of a small coin. Should the matter to be typed exceed this length, it is only necessary to insert another coin.

#### Studying Bird Life In North

J. B. Semple, ornithologist of the Carnegie Museum, at Pittsburgh, Pa., has left with two assistants on an expedition which will take them to James Bay and Hudson Bay where they will study sub-Arctic bird life. They will be gone three or four months.

### Palpitation Of The Heart Nerves Were All Gone

Miss Rose Griffin, Ashern, Man., writes: — "About five years ago I was troubled with palpitation of the heart, caused by a shock, and my nerves were all gone, and I could not sleep. I read about Milburn's Heart and Nerve Pills and decided to try them. After I had taken three boxes I was feeling fine again. I think they are a wonderful remedy, and wish all others who suffered as I did would give them a trial." Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Price 50c a box

#### Calgary Exhibition

##### Poultry Association Endeavoring To Have An Interesting Exhibit

Entry forms to prospective exhibitors in the poultry classes at the Calgary Exhibition and Stampede, to be held July 6 to 11, are being sent out by the exhibition board. Entries close on June 20. A covering letter from Dr. D. S. Macnab, president of the Calgary Poultry Association, urged that some entries be made by all breeders, even though only one or two birds. "Shows and exhibitions are necessary if we are to continue to breed birds true to type," he says. "The value of the opportunity of placing your birds alongside those of other breeders of the variety and comparing them far outweighs the value of any money prizes you may be awarded—welcome as those undoubtedly are."

#### Recipes For This Week

(By Betty Barclay)

##### SPECIAL BREAD PUDDING

- 2 cups milk, scalded.
- 2 tablespoons butter.
- 1 cup stale bread, cut into 1/2 inch cubes.
- 1/2 cup sugar.
- 1/4 teaspoon salt.
- 1/4 teaspoon vanilla.
- 1/2 teaspoon almond extract.
- 2 eggs, slightly beaten.
- 1 cup coconut, toasted.

Combine milk with butter and bread cubes. Add salt, sugar and flavoring to eggs and beat slightly. Pour milk mixture over egg mixture and pour in coconut. Pour into greased baking dish, place in pan of hot water, and bake in moderate oven (350 degrees Fahrenheit) to 45 to 50 minutes. Serves 6.

##### BUTTERSCOTCH COOKIES

- 3 1/2 cups special cake flour, sifted.
- 1/2 tablespoon soda.
- 1/2 tablespoon cream of tartar.
- 1/2 cup butter or other shortening.
- 2 cups sifted brown sugar.
- 2 eggs, well beaten.
- 1/2 tablespoon vanilla.

Sift flour once, measure, add soda and cream of tartar, and sift again. Cream butter, add sugar gradually, and cream together thoroughly. Add eggs and beat well. Add vanilla and flour, mixing well. Shape into round or square loaf, wrap in waxed paper, and chill over night. Remove paper; cut in thin slices. Bake in hot oven (425 degrees Fahrenheit) 8 minutes. Cookies may be sprinkled with chopped nuts before baking. Makes 8 dozen cookies.

Spare the children from suffering from worms by using Miller's Worm Powders, a most effective vermifuge with which to combat these insidious foes of the young and helpless. It is an excellent worm destroyer, and when its qualities become known in a household no other will be used. The medicine acts by itself, requiring no purgative to assist it, and so thoroughly that nothing more is desired.

#### Watch Screws For Machines

Smallest Made and 482,000 Required To Weigh a Pound

Watch screws are the smallest made for use in machines. Some of these tiny screws are only one thirty-four-thousandth of an inch in length, the diameter of the head being one twelve-thousandth of an inch. Such a screw has 360 threads to the inch and 482,000 of them are required to make a pound.

Persian Balm quickly relieves chapping, windburn, and all roughness caused by weather conditions. Keeps the complexion clear and lovely. Completely absorbed by gentle rubbing. Never leaves undesirable stickiness. Stimulates the skin. Makes it soft, smooth and flawless. Preserves and enhances natural beauty. Soothes, refreshes and invigorates. Makes hands soft and flawlessly white. Imparts that subtle charm so essential to true elegance.

#### Taken Off Free List

No more free matches are to be supplied in smoking-rooms and the refreshment counters of the British House of Commons. About 12,000 boxes of free matches are passed out at each session of the House.

The Russian workman, forced to quit a job he likes and work where the bosses need him, must rejoice in the fact that he is no longer slave of a Czar.

#### Japanese Going Into Poultry

Five Thousand Eggs From B.C. Shipped To Japan In One Week

Five thousand British Columbia eggs were shipped in one week to Japan. Japanese experts visited British Columbia poultry farms and selected, almost to an egg, the hatching stock they required. Then they went to the Record of Performance officials, Winch Building, Vancouver, and placed large orders. These eggs sold at prices ranging from \$5 for each egg to \$10, \$20 and \$30 a dozen. T. J. Smith of the R.O.P. organization, Vancouver, says that the Japanese, formerly buyers of B.C. hens and cockerels, are now getting well into the poultry business and are learning scientific hatchery management. "They are using British Columbia stock for the foundation of their poultry industry," Mr. Smith said.

When Asthma Comes do not despair. Turn at once to the help effective—Dr. J. D. Kellogg's Asthma Remedy. This wonderful remedy will give you the aid you need so sorely. Choking ceases, breathing becomes natural and without effort. Others, thousands of them, have suffered as you suffer, but have wisely turned to this famous remedy and ceased to suffer. Get a package this very day.

#### Valuable Tablets Found

Throw New Light On Religion At Time Of Abraham

Religious sculptures nearly 4,000 years old have been brought to London, England, by C. Leonard Woolley, who just returned from Ur of the Chaldees. There are important inscriptions and tablets which throw new light on the history and religion of people who lived at the time of Abraham, about 2000 B.C.

"They represent the worship of God by the common people," he said. "We found them in little chapels built along the public streets of Ur."

Balsa wood is so buoyant that it can support almost ten times its weight.

#### Crime In United States

Statistics Show Homicides Doubled In Past 30 Years

Statisticians have completed their annual study of homicide in the United States, and have produced figures that should appall proportionately with the effect of the compilation of a year ago. These researchers have collected data from thirty-one cities with a collective population of twenty-five million people.

In a generation — thirty years — the average homicide rate for these thirty-one cities has doubled. And in one year the rate has gone up from 8.5 to the hundred thousand population in 1929, to 10.9 in 1930.

There were seventeen times as many homicides to the 100,000 as in England and Wales.

Then the statisticians add one significant statement; The number of convictions in murder cases in the United States is decreasing steadily. The number of murders is rapidly increasing throughout the country. — Minneapolis Journal.

#### Service For Theatre Patrons

Delivery of theatre tickets by motorcycle messengers to any address within 12 miles of the West End, has been started by the Whitehall Theatre in London, England. All playgoers have to do is to telephone the theatre and order the seats. Payment is made on delivery of the tickets, no delivery charge being added.

#### BLACKHEADS

Don't suffer any longer from these unsightly blemishes. Overcome them at home! Get 2 oz. Peroxine Powder from your druggist. Sprinkle a little on the face cloth, apply with a circular motion and the blackheads will be all WASHED AWAY. Satisfaction or money returned.

Fond Mother: "You brute! Look what you've done to my child's banana."—The London Opinion.

## WORLD HAPPENINGS BRIEFLY TOLD

Hoping to settle internal troubles in B.C., the government will ask Peter Veregin to hand over the colony of Crestovia to the Sons of Freedom.

Queen Mary was 64 years old on May 26, and felicitations poured in on her from a wide circle of relatives, friends and admirers.

Hon. Herbert Marler, Canadian minister to Tokyo, in an interview, urges Canadians to go after Oriental trade.

Regulations governing the shipment of cattle from Canada to Great Britain have been amended to permit the carrying of cattle on open decks in the summer months.

Within the next year between 20 and 30 trade treaties are to be revised, according to a statement made in the House of Commons by Hon. H. H. Stevens.

Export trade in Canadian whisky ran into a tremendous slump during April. The figures were \$169,000 compared with \$2,178,000 for the same month in 1930.

W. G. Duncan, superintendent of the Prince Albert branch of the Soldier Settlement Board for two years, has been transferred to take over the superintendency of the Calgary, Alberta, office.

Gold seekers have staked claims in the valleys of Long River and Badger Creek, seven miles northeast of Holmfeld, Man. Traces of gold were found in the valleys about 20 years ago and interest has been revived.

Announcement that the British Dental Association will meet in conjunction with the convention of the Canadian Dental Association in Toronto during July, 1932, was made at the 64th annual meeting of the Ontario Dental Association.

Russian civil aviation authorities announce the intended opening on August 1 of one of the longest passenger and mail airlines in the world, extending more than 10,000 kilometres (roughly 6,000 miles), from Moscow to Irkutsk and Vladivostok.

### New Uses For Wheat

New uses for surpluses of wheat and other grains are being made the subject of an exhaustive survey by the National Research Council. It is announced. Other studies are being conducted in the hope of developing processes which will turn waste materials into products of commercial value.

"I am hungry, sir."  
"Here is some bread and cheese."  
"I have seen better days!"  
"Then I will get you a serviette!"  
—Pele Mele, Paris.

## SUNDAY SCHOOL LESSON

JUNE 7

### JESUS CRUCIFIED

Golden Text: "He was wounded for our transgressions. He was bruised for our iniquities; the chastisement of our peace was upon Him; and with His stripes we are healed."—Isaiah 53.5.

Lesson: Luke 23.

Devotional Reading: Isaiah 53.7-12.

### Explanations and Comments

The Crucifixion, verses 33, 34.—We call the knoll where Jesus was crucified Calvary, from the Latin word "calvaria," a skull. There He was nailed to a cross, and on either side of Him a malefactor was hung to intensify the ignominy of His crucifixion. The four soldiers who crucified Him, after dividing His garments among them (the headress, the shoes, the outer robe and the girdle was distributed "to every soldier a part," John 19.23, 24), cast lots for the possession of the seamless inner robe. And then they sat and watched Him there (Matthew 27.36), to make sure that He was not rescued. There is a remarkable picture by William Blake, which depicts the three crosses from behind. No form of Christ can be seen. The soldiers are casting the dice for His garments, but they have gone behind the cross to do this. Light emanating from the central cross illuminates the other crosses and the soldiers. Thus the artist has sought to depict the victory of the tragedy.

And sitting down, they watched Him there.  
The soldiers did,  
There, while they played with dice,  
He made His sacrifice,  
And died upon the cross to rid  
God's world of sin.  
He was a gambler, too, my Christ,  
He took His life and threw  
It for a world redeemed.  
And ere His agony was done,  
Before the western sun went down,  
Crowning that day with crimson crown,  
He knew that He had won.  
—G. A. Studdert Kennedy.

"Father, forgive them; for they know not what they do," were the beautiful words of the Saviour spoken not only for the soldiers who had merely obeyed orders, but seemingly also of the Jews who had brought about His crucifixion but had not realized the enormity of their guilt. His prayer exemplifies the spirit which He had tried to inculcate in His followers when He bade them love their enemies, and do good to them that despitefully used them. "Think of the generous heart of the dying Saviour who could actually try to find an excuse—not merely forgive—not merely pray for—but actually try to find something to say in their favor. There was very little that could be said, but He looked for it and said it. Their prejudices, their upbringing, their ignorance about Him. They did not know what they were doing. If they realized it, they would not do it. Father, forgive!"—J. Paterson-Smyth.

The Death, verses 44-46.—For three hours there was darkness and the veil of the temple—the curtain between the Holy Place and the Holy of Holies—was torn in two. "The darkened skies were a fit symbol of the blackest crime in all history of man. The rending of the temple veil was a type of the 'new and living way' opened into the presence of God for all believers. Thus these two signs vine aspects of this atoning death, and indicate the heinousness of sin and the purpose of redeeming grace."—Charles R. Erdman.

"Through His life and triumphant death, and through the living energy of the Spirit, we share in the redeeming love which overcomes evil, and find forgiveness, freedom and eternal life."

An authority claims that a goose can live 50 years. Quite a number of humans just begin to realize it at that age.

## Advocates Mixed Marriages

### Union Of White and Yellow Races To Prevent Race War

Intermixing and marriage between the Japanese and Chinese and white races in British Columbia would not only settle the so-called racial problem, but the resultant race probably would be superior to both the present white and yellow races, in the opinion of Dr. Charles Hill-Tout, noted Vancouver anthropologist, expressed in an interview in Toronto.

In ten generations, if racial and cultural prejudice would be broken down and cross-breeding continued, the characteristics of the new race would be fixed, said Dr. Hill-Tout, who is attending the sessions of the Royal Society of Canada.

Only by intermarriage to the fullest degree could Dr. Hill-Tout see any solution to the possibility of an ultimate race war, with the coloured peoples against the whites. "I think such a conflict is a possibility," he said, "if we don't check up on our air of superiority in dealing with the Asiatic peoples and give India self-government. That seems the only way to me of preventing India from aligning itself with some enemy of Europe."

"All this foolish prejudice of race—just as strong on the part of the Japanese—should be broken down," he continued. Denying emphatically the common belief that a mixture of the races usually retains the vices of both and the virtues of neither, Dr. Hill-Tout said that was simply because, "with our cultural prejudice, the resultant product is forced back into the lower of the two races culturally." It was that way with the half-breeds of Western Canada, he said, who on account of the race pride of the white were forced back to live with the Indians.

## Russia Keeps It Up

### Country Steadily Forging Ahead To Reach Its Goal

Russia keeps it up. Her wheat crop is past a billion bushels, away ahead of any other country, and she has now reached her five-year goal in oil production in two and a half years. She has displaced Venezuela as the second largest oil-producing country. The United States is easily first. Elsewhere in this matter is published the statement of the British Secretary for War that Russia's expenditure for war preparation has increased 184 per cent. since 1924, and now Russia has ordered 100 tanks from a British firm. Russia's army is steadily becoming more formidable.

Nearly one-fourth of Poland's 1930 steel production went to Soviet Russia.

## The ADVENTURES of CAPTAIN JIMMY and his Dog SCOTTIE

WHAT CAME BEFORE: Captain Jimmy and Scottie become lost in the darkness while flying over the Chinese war zone. On landing, they are captured by Chinese bandits. Captain Jimmy escapes and plans to set free the remainder of his party.

Cautiously I moved toward the camp. The fires had burned to embers and now and then flamed up fitfully. Certainly the outlaw laws wouldn't be looking for an escaped prisoner prowling around their tents at that hour.

Rolling near the largest of the fires, lay the figure of a man. Carefully I crawled nearer. A small twig broke under my knee, and I stopped, motionless, not even breathing for a minute or two.

As I wiggled closer I could make out his features. Sure enough, it was poor old Fu Hsu (Foo Soo) the interpreter. He was cramped and so cold and scared. I held up a finger in warning, and worked myself along to a point where I could cut his bonds with a jack knife.

"All asleep?" I whispered. He nodded. Quietly we crept away toward the cool spring. The fresh, cold water revived him wonderfully. He drank as though he never intended to stop. Then I questioned him.

"What happened to Scottie?" the dog barked. "Bandit hit him on the head—dog he bit bandit. Tie dog to tree. No idea where doggie."

"And the Colonel?" I asked. "Colonel," he barked, "now. He cook," whispered the interpreter.

"He'll probably make a better bandit than a Colonel."

Meanwhile, a plan had been forming in my mind. Quietly we picked our way to where the burros were hitched. We tied a dozen of them together so they would lead in a line. The other burros we cut loose, so it would take time for the bandits to catch them and get on our trail.

Taking the halter of the lead burro, I headed down the valley that led through the cleft in the mountains. Fu brought up the rear with two more burros—their head ropes tied around his waist for fear he might drop it! He was the most hopeless Chinese I ever saw.

Loose stones began rolling, and the burros instead of walking on their tips, seemed to stamp along on their heels. You know how loud everything sounds when you want to be quiet, and it certainly seemed as if the noise we were making must wake the whole camp.

Finally we came to the narrow defile. Beyond that notch there was a lot of a plateau. It was here that the bandit guard would be.

The bandits had just risen to their feet at the sound of our burros coming through the pass. Plainly they were puzzled. Had we come riding out into them like a whirlwind, they would have understood, and started firing on us. But here was a string of burros peacefully wending their way into the light of their camp fire.

Leaning forward from the neck of my burro, I picked the last of the string with my jack-knife. With a shrill cry he jumped against the next one ahead, who in turn rushed the next. In a moment they were in headlong flight.

They scattered right and left among the bandits, and when a burro failed to bowl one over, the rope caught his feet and tripped him. Then, in the midst of the uproar, we dashed out yelling. The rout was complete. We just waited long enough to grab a rifle and went on a mad scramble down the mountain side.

Five at a time we rode at break-neck pace. Far back up the valley the whole bandit camp were in hot pursuit. When my burro showed signs of slackening speed, I thumped him in the ribs and off he went again amid a shower of dust and loose stones.

Rounding a corner we came suddenly to a railroad track, where five or six decrepit old freight cars stood, and a rickety old engine. We could hear the hoofs of the outlaws' burros pounding down the valley as we reached the cars. I leaped over and grabbed Fu by the back of his pants. As I heaved to pull him in, a dark body came hurtling in, caught me amidships, and over we all went in a pile on the floor.

(To Be Continued.)

Anyone desiring photo of Captain Jimmy, write to Captain Jimmy, 2010 Star Building, Toronto.

## Borden's Chocolate Malted Milk

The health-giving, delicious drink for children and grown-ups. - - - Pound and half pound tins at your grocers

### Mooring Mast Cost

The cost of the airship mooring mast at St. Hubert, Que., including land, buildings, equipment and all improvements up to March 31, 1931, was \$1,846,569.16, according to a reply given in the House of Commons by Hon. Donald Sutherland, Minister of National Defence. This sum was exclusive of operating charges.

### Western Livestock Values

Values of livestock in the Western Provinces are given in the latest estimates as follows:—Manitoba, \$53,741,000; Saskatchewan, \$112,846,000; Alberta, \$94,065,000, and British Columbia, \$27,355,000.

### Undergo Special Test

#### Locomotives Of German Railway Examined and Checked Yearly

Once a year the locomotives of a German railway are examined for stability and performance by placing them on a special test stand. Here each engine is operated for many hours as though on an actual run, and careful check is made of its performance. The whirling wheels of the stationary locomotive often revolve to equal an engine speed of eighty miles.

The celebrated leaning tower of Pisa is made entirely of marble.

|  | <u>\$1,078,801.09</u> |

*The strength of a bank is determined by its history, its policy, its management and the extent of its resources. For 113 years the Bank of Montreal has been in the forefront of Canadian finance.*

BANK OF MONTREAL ISSUES  
STRONG STATEMENT

The semi-annual statement of the Bank of Montreal, just issued, contains many interesting features, outstanding among which is the very strong position of this leading institution, as disclosed by substantial increases in its already large holdings of Dominion Government, Provincial Government and other high-grade securities. The strengthening of the Bank's holdings in this attractive form of investment has been possible, doubtless, owing to the lessened demand for accommodation from general business and also to a marked contradiction in call loans in Canada and abroad.

Profits for the six months were applied as follows: dividends \$2,160,000; provision for taxes Dominion Government \$280,000, and reserve for bank premises \$200,000, leaving an amount of \$131,753 to be added to the sum of \$947,047 brought forward at the end of the bank's fiscal year.

NO REGISTERING AT  
U. S. BORDER

The Automobile Club of B.C. has been advised that it is no longer necessary to register a car when entering the State of Washington on a tourist's permit. Formerly it was necessary to do so, but the law governing same was repealed by the 1931 Legislature.

Tourists from the United States to British Columbia do not register their cars in B.C., the ordinary custom entry form being all that is necessary. This covers a sixty-day visit, which may be extended to a ninety-day entry upon application to the Collector of Customs.

Tourists from other provinces of Canada to B.C. are allowed six months touring privilege on their home license plates, and are required to register their cars within twenty-four hours after entering B.C., this being looked after by the motor branch of the provincial police. If Canadian tourists wish to stay in B.C. longer than six months for touring purposes, it is necessary to secure B.C. license plates and pay the registration fee of \$10.

ELIMINATION OF EXAMINATIONS  
FOR GRADES VIII AND IX

Elimination for this year at least of the Grade 8 and Grade 9 Department of Education examinations was announced last week by Hon. Perren Baker, Minister of Education.

The measure is two-fold, to effect economy in times of stress and to bring Alberta more into line with what is being done in other provinces.

In the economy line, it will mean that there will be 113,000 less papers to write and will reduce the number of paper readers by 165.

Alberta also will be brought more readily in line with other provinces, as no other province in the Dominion has gone in so heavily for examinations as this, although others are close behind.

In further discussion of his announcement the minister stated that Grade

8 diplomas and standing in Grade 9 subjects and in Literature 2 and Composition 2 of Grade 10 would be granted on the teacher's recommendations.

Examination papers will go out from the Department as usual, but those of the subjects mentioned above will be only for the use of the teachers in determining whether students shall be recommended for standing. Persons who have not been in attendance at school may receive standing by successfully writing the departmental examinations in the usual way.

The reduction in number of examinations will carry with it a reduction in fees. Pupils of Grades 8 and 9 having no examinations, will have no fees. Fees for grade 10 will be reduced to \$4; for grade 11 to \$6; while the fee for Grade 12 is \$7.

It is estimated that the saving to parents will be \$60,000.

Full instructions on the whole matter are being forwarded to all schools.

EXTENSION GIVEN ON FREIGHT  
RATE FOR ALBERTA COAL

The special freight rate of \$6.75 per ton on Alberta coal shipped to Ontario has been extended until next year, Hon. W.A. Gordon, Minister of Mines, informed the House of Commons Thursday last in reply to a question from E. J. Garland (U.F.A. Bow River).

### CHAPTER XIX.

During the next week Nick had no time for introspection. The days were crowded with the winding up of his business—the mailing of his report and certain important papers—a letter to John Maxwell, accepting his generous offer to "take more time," and a long and loving explanation to Gay, telling the whole story, and how his decision to come back to her at once had been changed by this unexpected, almost incredible good fortune. He wrote:

Just imagine, dear girl, cruising around these tropic waters in a private yacht! Of course you'd tell me to go! If I weren't so sure of that I wouldn't consider it for a minute. I gather from your last letter that everything's all right at home; and though I'll admit that at night I get homesick, and wish I'd stuck to my first plan, still, I think if I did we'd regret it, both you and I.

So I'm going. It will mean only a month dear. They're to drop me where I can get a boat—probably some point in Cuba. Anyhow, send a letter to Havana. And of course I'll write if I get a chance to mail anything, though that's unlikely. However, I understand that the yacht's equipped with wireless, which makes me feel nearer home. Can't you hold back the apple blossoms till I come? I don't want to miss 'em!

This was but a small part of that letter. Knowing Gay's feeling about Angela, Nick explained her part in the invitation with almost too much caution. He laid great stress on the kindness that had made her take the journey to Kingston for the sole purpose of giving him this chance. He said, as he had said so often in the past, that he felt sure Gay was unjust to her, and that she was an unhappy woman. If he could help her to forget things for a while, it might repay her a little for her thoughtfulness in asking him to go.

On the day this letter reached Bakersville, Gay was not well. She was resting in her bedroom when Sonny brought in the mail, which consisted of her letter, and the usual postcards for the little boys. Gay read them aloud to Sonny, and as he descended to share them with Uncle Sim, she turned to her own letter with a sense of overwhelming gladness. It would doubtless tell when Nick was coming. His last note had hinted that the work was reaching completion, and that she could look for him before many weeks.

Gay had missed her husband more than she would let herself admit. If, as Nick said, he felt when away from her like a man minus an arm or leg, Gay herself felt a sense of oppres-

### Lovely Skin

**Vegetable Pills Did What Creams Couldn't**

"I find (writes Miss E. T. Clapham, that Carter's Little Liver Pills will do more to keep the complexion clear and the skin free from blemishes than all the face creams I have used."

Dr. Carter's Little Liver Pills are no ordinary laxative. They are ALL VEGETABLE and have a definite, valuable tonic action upon the liver. They end Constipation, Indigestion, Biliousness, Headaches, Acidity. All druggists. 25c and 75c red packages.

W. N. U. 1899

sion, as if the very heart in her breast was incomplete with Nick so far away. And for the last few days a weakness she did not understand had come upon her. It frightened her. Was she perhaps, to go through all she had suffered for little Nick, again? She would not let herself face the thought. There was no reason to think that the same experience would be hers twice. The doctor had reassured her firmly. When Nick came home everything would be all right again; and if the baby were the little girl he wanted (and deep in her heart Gay knew it must be that little girl), how gallantly she could endure the suffering! It was the courage Nick always gave her that she missed now. She couldn't stand having him away much longer.

Gay read her letter.

An hour later, wondering at her long silence, Uncle Sim went quietly upstairs. Gay had said nothing about not feeling well, but the old man had detected an unaccustomed listlessness in her manner, and understood that things were not quite right. Fearful of waking her should she be asleep, he stood for a moment on the threshold. Then, at a sudden convulsive movement of her shoulders, he crossed the room and touched her gently. She turned, and with consternation he saw the tears.

"What's the trouble, dearie?"

She sat up, wiping her eyes; trying to smile; ashamed that he should find her weeping.

"I'm just a—silly. All along I've urged Nick not to hurry, but—but somehow I thought he would. That's like a woman, isn't it, Uncle Sim?"

"I don't just rightly get it," said patient Simeon. "Isn't Nick comin' pretty quick?"

"He—he was." She swallowed a sob, and went on quietly: "He'd made up his mind to start as soon as his business with that stupid lawyer was finished, and then—you—know, Uncle Sim, that Mrs. Halliday was on the boat going down?"

Simeon nodded. Daylight was breaking through, and his jaw settled into a straight, unyielding line. Gay, twisting her wet handkerchief into a ball, did not notice.

"It seems," she continued slowly, "that some friends of Mrs. Halliday's—some people who visited here last summer, have asked Nick to go on a cruise in their yacht. Mrs. Halliday went clear to Kingston to give the invitation. It—it was very kind of her, of course, and it's a wonderful chance for Nick. I suppose I'm selfish even to feel disappointed. He says it's for only a month longer, and they're to go into out-of-the-way places, and see marvelous things. It's ridiculous of me to cry, but—but I'd made up my mind he was coming, and—"

"There! There!" Simeon comforted. "A month'll slip by in no time now the warm weather's come, and they're so much pretty to look at. When does he sail? Look-a-here Gay! If you feel like you couldn't spare him I'll send a message. Nick wouldn't want to go if he knew you needed him."

For a perceptible moment her eyes brightened; then she said: "No, it's too late; and anyway I wouldn't be so selfish as to spoil his plans. They must have sailed yesterday or the day before, and there's no way to reach them. He doesn't even mention the name of the yacht—probably didn't know when he wrote. Don't worry about it, Uncle Sim. I wouldn't have cried if I'd been well."

She hadn't meant to confess even as much as that, but Simeon said anxiously: "What's the matter, dearie? Have you seen the doctor?"

"No; but I will. I shan't economize on doctors now, Uncle Sim—not after what I went through before."

Simeon walked to the window—looked out at the children, and called: "Sonny, you let little Marthy be. Don't you know she's a lady and you got to be polite? That's it. Now, Marthy, you give that spoon to the baby. He's littler'n you, and you got to learn to give up yer own way. There comes your daddy. You ask him if Uncle Sim ain't right."

Gay had joined him, and was watching Halliday bend down to settle the small dispute. Simeon put an arm about her.

"Look-a-here," he said, "how's Nick to get back if they're cruisin' off in them out-o'-the-way places?"

"They'll drop him somewhere—some part of Cuba, probably. Perhaps he'll write more definitely before they start. You can read the letter, Uncle Sim. It's a darling letter, and of course I understand; only—only,

**PILES**

**PAIN STOPS LIKE A FLASH!**

"I had piles for months. Nothing helped me until I tried 'Sootha-Salva'. The first application ended it and pain. Piles gone." —K. C. Arley. End pain quick. All druggists.

Uncle Sim, I—I don't like Mrs. Halliday."

"M—m," grunted Simeon; then: "Nick'll find her out, honey. Nothin' like boat travel to show up people's fallin's."

"But Nick's so—trusting. He thinks everyone's as splendid as he is himself. And she's clever, and older than he, for all she looks so girlish. I shouldn't want her to make a fool of him."

"Don't you trust him, Gay?"

She flushed hotly.

"Of course I trust him! I don't trust her, that's the trouble. Oh, I'm not jealous. I'm not. I'd trust my husband on a desert island with the prettiest woman in the world; but I have a feeling that Mrs. Halliday has some reason for her interest in Nick. Why should she have taken that journey to invite him, when she could have written? Don't you see? She knew the influence of her personality. She knew it would count. It's what she wants of Nick that troubles me—not what he may want of her."

"She wants his scalp most likely," mused Simeon wisely, "but if I know Nick she'll have some little trouble pryin' it loose. Now you go wash yer face, dearie, and come down to dinner. That hired girl Julie Nipps found for us is some cook. I think maybe I'll take over the housekeepin' from now on, so you won't know what you're goin' to set down to. Maybe some surprises'll give you more relish for your victuals. My old woman used to say she got sick to death o' knowin' what was comin' on the table, even if she didn't cook it herself."

Gay pressed her cheek lovingly against the old man's arm.

(To Be Continued.)

### A Unique Industry

#### Town Of Norway, Maine, Has Large Snowshoe Plant

Snowshoes and skis may be out of season, but not in the small town of Norway, Maine, on the Norway branch of the Grand Trunk Railway, branch of the Canadian National Railways.

One of its largest industries is the manufacturing of snowshoes and skis and it boasts the largest ski and snowshoe factory in the new world. Improved machinery now being installed will greatly increase the present annual output of 10,000 pairs of snowshoes and 60,000 pairs of skis.

Each year the hides of 3,000 steers are cut up for snowshoes filling or strings, and 200,000 feet of white ash are used for the frames. Snowshoes varying in size from a child's model measuring 9 inches by 32 inches to a 6-foot Peary model are made in Norway as well as skis from 3 to 9 feet in length.

Mellie Dunham, of fiddling fame, who lives in Norway, designed and made the snowshoes used by Rear Admiral Robert E. Peary on his successful dash to the North Pole.

Wise mothers who know the virtues of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

### Cattle Shipments To Britain

**Livestock Shipments In 1930 From August To End Of Season Reached 3,581 Head**

Following the revival last summer, after an absence of some years, of Canadian live cattle shipments to the British market, 3,581 cattle reached the port of Manchester from the Dominion between the initial shipment made in August and the end of 1930, writes Harry A. Scott, Canadian Trade Commissioner, at Liverpool, in the Commercial Intelligence Journal.

### for SPRAINS

Rub Minard's in gently. It penetrates sore ligaments, allays inflammation, soothes, heals.

Puts you on your feet!

**MINARD'S**  
"KING OF PAIN"  
**LINIMENT**

### Number Of People Afraid Of Lightning

**And Still Will Risk Their Lives In Many Ways**

It is surprising to find the number of people who are terrified of lightning, in spite of the fact that the records go to prove that very few persons have ever been struck by lightning.

As a matter of fact there is no reason for terror, but when nature starts her fireworks it is useless to point this out to many people.

It really is surprising. There are men—we are not talking about women—who will shiver at a flash of lightning, even rush for cover.

Yet these same men are not afraid to try and beat a train over a level crossing, or not afraid to cut in and out of traffic on a crowded highway, even if they have the family with them in the car.

And there are men who think nothing of trying to pass a car on the face of a hill, or of driving at a rate of sixty and seventy miles an hour, who will not drive at all in a thunder storm, because they are afraid of lightning.

There are men who are afraid of lightning, who are not afraid to rock a boat; to lie, to steal, even to be high pressure salesmen. The list, in fact, is long, if not endless.

True, lightning has proved fatal, but even if it chose all its victims from the class of birds we have mentioned, scarcely a gap would be made in the ranks, we would still have them with us, a pest on the land.

### Effective Fog Horn

#### Toronto Professors Working On An Entirely New Type

The most effective fog-horn in the world was perfected by John Northey of Toronto, and is now being used by many foreign countries, Prof. Louis V. King, of McGill University, told the physics section of the Royal Society of Canada recently.

Prof. King and Prof. C. U. Vesot are now working on an entirely new type of fog-horn, it was announced. This horn would enable a ship to determine its exact distance from the danger point. Simultaneous warnings would be sent out by sound and by radio, and picked up by a delicate mechanism on shipboard. Using the difference in time between the arrival of the sound warning and the arrival of the radio warning the ship's crew would then be able to calculate the distance over which the message had come.

### Soviets Make Rubber By Secret Process

#### Cost Of Manufacture Said To Be Very Low

The Leningrad rubber trust factory produced more than a half metric ton (more than 1,100 pounds) of commercial rubber from oil in one day by means of an unrevealed process.

The work was done under direction of a Professor Byzou, crowning experiments begun in 1918, the announcement said. It was reported the production cost was extremely low and that the new process accordingly presents tremendous commercial possibilities.

Rubber goods are being manufactured from this batch at the "Red Triangle" factory in Moscow.

Douglas' Egyptian Liniment relieves toothache and neuralgia. Invaluable in cases of croup, sore throat and quinsy. Keep a bottle handy.

### Adds Value To Home

#### Shrubbery Which Is Carefully Planted Is Real Asset

Carefully planted shrubbery adds charm and value to the home. Authorities agree that best effects are secured by confining the shrubs to the border and to the base of the dwelling, leaving an open lawn. In foundation planting shrubs of different heights should be chosen and the planting arranged irregularly and so placed as to conceal the alignment without completely covering the foundation.

Suitable shrubs are described by the Dominion horticulturist in the federal department of agriculture bulletin No. 89, which also tells how to go about the planting.

April Fools day originated with the Hindus, who celebrated it on March 31, but the Romans' Feast of the Fools was held on February 17.

### There Should Be No Ugly Women!

There are 2 classes of women, (1) The beautiful, healthy and attractive creatures.

(2) Those pitiful ones who don't know how to make themselves beautiful—rather those who don't know the vital importance of Kruschen Salts to physical perfection and attraction!

Kruschen Salts are a perfect blend of the six vital minerals which Nature ordained, glands, blood, nerves and body organs should daily receive from food if they're to function correctly—and which are impossible to obtain in this age of modern cooking.

Get a bottle of Kruschen—and before the bottle is half empty your complexion should be gloriously smooth and clear. Kruschen clears blood of harmful acids and poisonous waste matter which cause blemishes, blackheads and pimples. Your wonderful new energy will surprise you; mind feels so keen and alert; no more washed-out feeling getting up in the mornings.

### Little Helps For This Week

"Therefore if any man be in Christ, he is a new creature; old things are passed away; behold, all things are become new."—2 Corinthians v. 17.

Whatever hath been written shall remain. Nor be erased, nor written o'er again; The unwritten only still belongs to thee.

Take heed and ponder well what that should be.  
—Henry Wadsworth Longfellow

We cannot undo the past and begin afresh. We have to take the past as the starting point and determining element of the future. But the gospel reminds us that what cannot be obliterated may be transmuted by divine grace. In Christ Jesus we may become new creatures; and in the eternal life that we begin in union with Him all old things, so far as there is any condemning power in them, pass away, and all things in the transfiguring light of heavenly love become new.—Hugh McMillan.

**The Many-Purpose Oil.**—Both in the house and stable there are scores of uses for Dr. Thomas' Electric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and sciatica, sore throat and chest. Horses are liable very largely to similar ailments and mishaps as afflict mankind, and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

### Turkish City Dwindling

#### Constantinople Is Rapidly Losing Place As World City

Constantinople, once the proud capital of the sultans, is gradually dwindling into insignificance as a world city. In 1924 a rough census of Istanbul, as Turks call the city, showed a population of 1,065,000, of which about 656,000 were Moslems, 297,000 Greeks, 73,000 Armenians and 12,000 Jews. Three years later a more accurate census was taken and the city had then a population of only 673,000. Recently the municipal electoral committee, while taking a census in preparation for the elections, found that the population of Istanbul has slipped downward 119,000 since 1927. Evidences of commercial stagnation are apparent on every hand.

### War Relics Found In Park

Workman unearthed a number of World War relics in Kelvingrove Park, Glasgow, Scotland, recently. Among them were two hand grenades and four live eighteen-pound shells. It is believed they were stolen from a munitions factory during the war and hidden in the park.

### CORNS LIFT OFF!

**Pain Stops!**

An amazing remedy—acts in a few seconds and causes no pain. The corn shrivels up and loosens. Another application or two and the corn drops out. Wonderful—yes it is—but that is just how Putnam's Corn Extractor works. You can buy Putnam's Corn Extractor from any druggist for 35c.

## TOWN & COUNTY

## Personalographs

Alfred Braisher left Monday for Cal-  
gary after spending a couple of weeks  
in Carbon.

Miss Olive Heinz came out from Cal-  
gary on Sunday.

Miss Helen Smith returned from  
Bassano on Friday evening.

Miss Lucy Ruff motored to Delia on  
Saturday.

Mr. and Mrs. Carl Moorhouse motor-  
ed to Calgary on Sunday with Mr. and  
Mrs. Geo. Oliphant.

Bruce Ramsay took Miss McKechnie  
to Delia on Saturday.

Jack Spence spent the week end in  
Carbon and left again for Medicine  
Hat.

Mr. and Mrs. Wm. Smith have moved  
into the house formerly occupied by  
R. C. Barrs.

Mrs. Len Poxon spent a few days in  
Calgary last week.

Miss Ella Halstead of Craigmyle  
spent the week end at her home near  
Carbon.

Mr. R.E. Fraser, of Calgary, is ex-  
pected here on June 15th. He is the  
organizer for the Anglican Young Peo-  
ple's Association and will assist Rev.  
L. D. Batchelor in the formation of a  
Young People's Society in connection  
with Christ Church parish. Details of  
meeting will be announced later.

**WANTED**—Cattle to Pasture—50c per  
head per month. Plenty of water and  
grass. Write I. E. Raw, r.r. 1, Dids-  
bury. Will move the cattle.

Sheep shearing time is near. If you  
want any sheep sheared apply to J.  
Tabert, Carbon. 3tc

Mr. and Mrs. H. Luft and Mr. and  
Mrs. Kaiser were in Calgary last week  
attending the funeral of Mr. Poffen-  
roth, father of Mrs. Luft and Mrs.  
Kaiser.

A number of Carbon Golfers went to  
Trochu on Sunday to compete in the  
first series of games in the Herald  
playoffs. The Carbon boys on the whole  
showed up well against the Trochu  
players and were successful in cap-  
turing the two lowest scores of the day.  
Those going to Trochu last week were  
Messrs. A. F. McKibbin, Hugh Brown,

W. Edwards, S. Reid E. J. Rouleau,  
J. J. Greenan, L. Poxon, F. J. Bessant  
and Bud Morrow. Caddies were Paul  
and Fergus Greenan.

Mr. and Mrs. S. F. Torrance and fam-  
ily, Mr. and Mrs. R. J. Fairbairn and  
family, and Mr. and Mrs. H.N. Elliott  
were picnicing at Drumheller on Sun-  
day.

### NEWS FROM THE SOUTH

Mr. and Mrs. Jacob Rott, and Mr.  
and Mrs. Adam Hoffman of North Do-  
kota, were visiting in the district with  
relatives over the week end, and left  
on Wednesday for Banff and other  
points before returning to the States.

Mr. and Mrs. John Brost and family  
and Mr. and Mrs. John Metzger and  
family motored to Hanna on Saturday  
where they spent the week end visit-  
ing with the Bill Metzger family.

Mr. and Mrs. Sam Ohlhauser and  
Mr. and Mrs. C. J. Bertsch Jr. went  
to Calgary on Friday of last week and  
returned on Saturday.

Mr. and Mrs. J. R. Guerrettaz and  
Mr. Tschetter and Mr. Hoffer went to  
Crossfield on Tuesday to look for some  
pasture for their stock.

Mr. and Mrs. F. Schuler and Mr.  
and Mrs. Birscht started out for their  
home at Washburn North Dakota on  
Monday morning, after spending about  
a week in the district with relatives.

Mr. and Mrs. John Welgum and fam-  
ily of Trochu were visiting with Mr.  
and Mrs. John Ohlhauser and Mr. and  
Mrs. Ed. Schell on Sunday.

Mr. H. G. Kary made a business trip  
to Turner Valley on Wednesday.

Mr. and Mrs. Emil J. Ohlhauser and  
family left Thursday on a motor trip  
to Portland, Oregon.

## TENNIS NOTES

(Continued from front page)

James; W. Poxon defeated W. Skerry;  
L. Trepanier defeated H. Poxon; G.  
Jealous defeated C. Reed.

**Semi-Finals**—W. Poxon defeated R.  
Wise 6-2, 6-3; L. Trepanier defeated  
G. Jealous 6-2, 6-0.

In the final W. Poxon defeated L.  
Trepanier 6-1, 6-3.

**Boys' Doubles, First Round**—J. Fair-  
bairn and J. Code defeated R. Wise  
and H. Wise; W. Poxon and H. Poxon  
defeated S. Poxon and G. Jealous; L.  
Trepanier and R. James defeated F.  
Poxon and J. James; C. Reed and W.  
Skerry won from H. Edwards and S.  
Malton by default.

**Semi-Finals**—W. Poxon and H. Poxon  
defeated J. Fairbairn and J. Code  
5-6, 6-2, 6-4; L. Trepanier and Roy  
James defeated C. Reed and W. Skerry  
4-6, 6-1, 6-2.

In the final W. Poxon and H. Poxon  
defeated L. Trepanier and R. James  
6-1, 6-2.

The first prize in the singles was  
given by W. A. Braisher and in the  
doubles the prizes were given by I.  
Guttman.

CARBON — — — ALBERTA

"SKIDDING"

This brilliant scintillating comedy of American home and political life will be something altogether  
new for Canadian Chautauqua audiences. The cast is excellent, and the characters of the play will be  
appreciated by people in every community throughout the Dominion.

In the twentieth century, families, like automobiles, do a lot of "skidding," but with more tragic  
results.

A fine love story is interwoven through the play.
